

## Kedington Support Rollout of Service Provider Infrastructure

In recent years the Kedington Solutions Division has established itself as one of Ireland's leading suppliers of Installation and Commissioning services to the main Carriers operating in Ireland.

Kedington has completed diverse projects for most of the carriers, ranging from the survey installation and integration of public WiFi networks for BT, to the deployment of Next Generation IP Routers in the eircom and BT network.

The scope of work undertaken by Kedington includes:

- Project Management
- Site Survey
- Survey Reports and Bill of Quantities (BOQ)
- Sourcing and provision of installation materials, including cabinets, fibre and copper cables, power cables, fibre management etc.
- Logistics (storage, kitting and delivery to site)
- Installation
- Commissioning
- As built documentation

Apart from WiFi and IP Routers, Kedington have also provided Installation and Commissioning services for ATM and SDH muxes, and DSLAM terminals.

DSLAM installations have included the installation of vDSL equipment into street side cabinets to provide broadband speed of up to 25 Mbit, paving the way for IP based TV services.

Kedington have completed projects for the eircom, BT, O2 and Smart Telecom networks. Kedington's proven ability to Project Manage complex multi-site programs has enabled the efficient integration of the latest high speed technologies on time, and within budget.

### About Kedington

Kedington was founded in 1989 and was purchased by Denis O'Brien's Esat in 1999. In March 2003 an MBO, led by Matt Porter and Colm Lyons was concluded taking the company back into private ownership. Matt and Colm managed to secure the entire Republic of Ireland operation, with offices in Dublin, Cork and Limerick, and kept the original management team together. Its customers have enjoyed a seamless change-over and continue to benefit from a huge wealth of expertise that still resides within the group.
